The image features a dark background with decorative wavy lines in a light yellow/gold color. These lines flow across the top and bottom of the frame. In each of the four corners, there is a small crop mark consisting of a circle with a crosshair.

14,333,375 seconds

this is how many seconds have passed
since december 18 2021, around the
time we met. it's so crazy, and i
love you. so much time with my baby,
so happy

$$6.62607015 \times 10^{-34} \text{ m}^2 \text{ kg} / \text{ s}$$

this is planck's constant. to be quite frank with you idk what the fuck it means, but i know it has to do with quantum physics and shit. and it has to do with energy and light and speed idk, but physics and quantum and all of that makes me think about you and how we met and were able to fall in love, and how like we are are part of this universe and we met each other and quantum! idk, ant man knows more about this. but we happened to meet, and now look at us. i am so happy. and it is bright and pretty

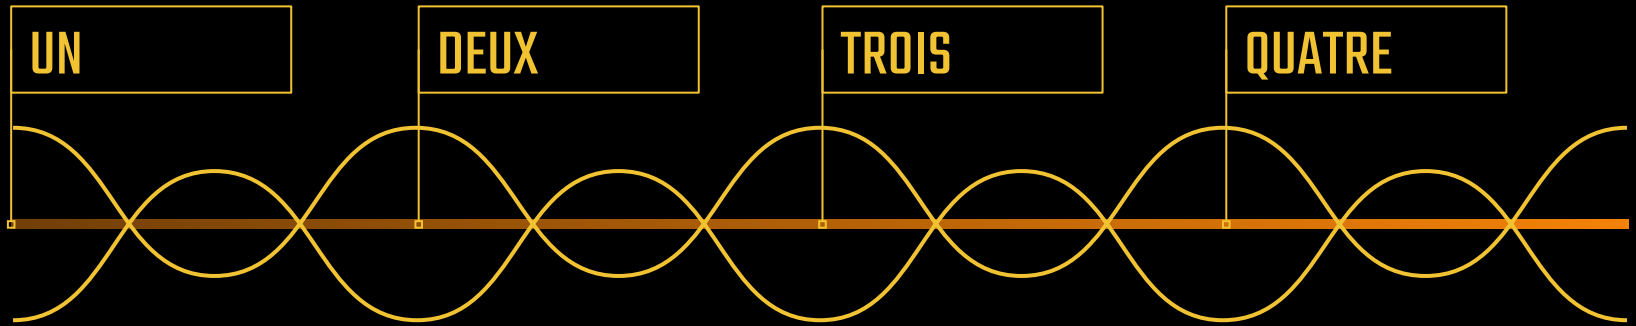

KIND OF LIKE THE MARVEL UNIVERSE

i am so happy we found each other in this one.

OUR RELATIONSHIP, THUS FAR

QUATRE → *QUANTUM*?

aNYWAY, so many more to come.

**“whatever lifts the corners of
your mouth, trust that.”**

did he actually say this?
either way, i agree wholeheartedly.

RYMA HAROUNE,

we got together four months ago and i am so grateful for this time together. you make me so happy. you love so deeply and passionately. you show me you love me everyday. you are funny and kind-spirited. $2+2$ is 4 indeed, and as we know, 2 is a prevalent number. so i do think this milestone is special.

but all of them are.

thank you for everything babeh. you have my heart.
i love you

dustie and suzie !

concluding with this. i love you
baby, you are capable of saving
the world and of anything and
deserve so fucking much.
